

YOUR GUIDE TO

Space Utilisation

Space utilisation in universities is a critical issue as they face limited resources, changing learning environments and ecological footprint. How can they maximise the potential of their existing space?

The Issue

As educational institutions face growing enrolment numbers, they are left with the task of maximising the utilisation of their current spaces to meet the escalating demand often with limited resources.

This increasing pressure can lead to overcrowded classrooms, underutilised spaces and environmental impact.

The Challenges

Some of the key challenges institutions face are:

- Financial constraints: building new facilities or renovating existing ones is expensive.
- Energy costs: universities must actively seek energy-saving strategies to reduce costs and ecological footprints.
- Analytics: universities lack comprehensive data on how their spaces are utilised.

The Solution

SEAtS Software space utilisation solution leverages advanced technologies and metrics to identify underutilised areas, streamline operations, and enhance the overall learning experience. SEAtS allows institutions to:

- View occupancy and utilisation metrics by campus, building, and room.
- Easily distinguish between in-person and virtual student attendance for accurate space utilisation reports. Give timetable managers accurate data insights to inform their scheduling.
- Monitor hourly usage and identify times to improve campus sustainability to reduce heating and lighting output.

SEAtS Software
Education Success Platform

About SEAtS

SEAtS Software is the ultimate solution for **Student Success, Operational Excellence** and **Corporate Governance** in higher and further education institutions.

With **SEAtS**, you can access powerful data analytics, reporting, process automation, case management, workflows, and early alert tools in one integrated platform.

Seats is trusted by hundreds of institutions worldwide to deliver quality education and achieve their strategic goals!

Our Solutions

- Student **Attendance**
- Student **Engagement Analytics**
- Student **Wellbeing & Retention**
- Widening **Participation**
- Placements & **Internships**
- **Compliance** Obligations
- Mitigating **Circumstances**
- Modern **Timetabling**
- Space **Utilisation**
- **SmartCampus**
